

To Mr Ralph

Things go better in N.Y. City & Binghamton. It is so nice for me. but in Cal-Arts I had serious problem in my situation and multimedia Lab, which is money problem. I got a budget on the paper, maybe I shall have only $\frac{1}{4}$ of approved budget. Under such condition, my plannings of this year in Cal-Arts are clashed. but I have a duty and responsibility for students of my course, and how can we realize our idea?, and I have one solution that make no.2 Video Synthesizer in Cal Arts from my private money, and after June I shall sell it to some student or other university that want to have.

Perhaps, new synthesizer will have much software in her body. and I want to finish it till middle of January. After that, I shall have time for you.

Sorry I can't come to Binghamton now.
